YOU CAN'T GET ANY BETTER.™

## THE POWER AND PERFORMANCE TO TURN TO-DO LISTS INTO TO-DONE LISTS.

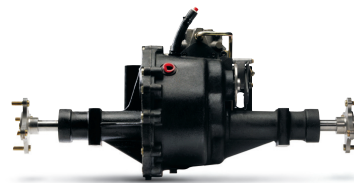

With the bigger, more comfortable Series 2500 Garden Tractor. Heavy-duty is its middle name. And pure performance is what it delivers, thanks to the powerful direct-drive shaft that provides a more efficient transfer of power to the rear transaxle. No belts to slip, stretch or break. Just power where and when you need it. Plus the comfort and convenience you want.

SEE HOW THESE FEATURES CAN MAKE ALL THE DIFFERENCE TO YOUR HOME AT [CUBCADET.COM](http://CUBCADET.COM).

### BETTER DRIVE SYSTEM

The shaft drive brings power directly from the engine to the transmission with no belts to slip, snag or break.

### TOUGHER TRANSMISSIONS

A cast-iron fully serviceable transmission with oil filter provides longer life and enhances performance.

### SMOOTHER RIDE

A deluxe ultra-high-back seat provides an extremely comfortable ride, plus the fender flare offers convenient storage. A 12V adapter turns your tractor into a portable power source.

### WHAT THAT MEANS TO YOU

Less fuel is lost during the power transfer, so you go longer in between refills. And you don't have to worry about repairing or replacing broken or dislocated belts.

You get a transmission that runs quieter, so you enjoy a smoother, more relaxing ride. Plus, if there's a problem, it's easier and cheaper to fix.

You get back support to keep you comfortable during long days. And you have extra storage space for items like extra tools or keys.
