

Cub Cadet

IT EVEN BEATS MOTHER NATURE AT THROWING SNOW.

Nothing cleans up big driveways better than the 900 Series Snow Throwers. They clear up to a 45" path and feature an OHV 4-cycle Cub Cadet® engine to cut right through the deepest, wettest snow. Equipped with high-impact polymer chutes, these snow throwers last longer in the toughest conditions. Which means nothing will stand between you and a clear driveway — not even Mother Nature.

INNOVATIVE FEATURES FOR AN INCREDIBLE EXPERIENCE. THAT'S THE **CUB CADET ADVANTAGE.**

POWER STEERING

Zero-Turn Posi-Steer™ power steering is at your fingertips to get the job done faster with effortless, single-hand turning. Heated hand grips included.

REMOTE PITCH CONTROL

Throw snow in the direction you want every time with pitch and chute control from the operator's station. You will spend less time in the cold as you control where you want the snow to be thrown.

COOL BLUE™ SKID SHOES

The revolutionary COOL BLUE™ skid shoes glide along surfaces for better maneuverability, while the stainless steel shave plate stays strong in harsh conditions. It's built better to protect your investment — and your driveway.
