

CUB CADET INTRODUCES THE MOST WELL-EQUIPPED COMMERCIAL ZERO TURN IN ITS CLASS – THE PRO Z 100 SERIES

Louisville, Ky. – October 22, 2015 – Cub Cadet has worked alongside professional contractors to engineer commercial equipment that blends heavy-duty design, power and efficiency and amazing comfort. The result is the new PRO Z 100 Series, the latest series of commercial equipment debuting at GIE+Expo in Louisville, Ky.

The PRO Z 100 Series features market-leading standard features and the most powerful commercial engines for the best overall value in its class.

- **Heavy-Duty Design:** Built to stand strong with a fully-reinforced frame and Triple Guard fabricated deck with 7, 10 and 11-gauge layers of steel. It also includes three-position, easy-adjust ROPS with spring-loaded locks and an automotive-grade corrosion defense system.
- **Commercial Electronic Fuel-Injected Engines:** Fuel-efficient Kohler Confidant EFI engines are available on the 48-inch deck model (25hp) and the 54-inch and 60-inch deck models (27hp). A 23.5hp Kawasaki FX engine is also available on the 60-inch deck model.
- **Full Line of New Commercial-Grade Transmissions:** The Hydro-Gear ZT-3400 features a 12cc pump and 16cc wheel motor design offering responsive ground speeds up to 10 mph and 500 ft./lbs. of torque for quick, smooth control.
- **Performance-Tuned Controls:** With a lap bar or steering wheel option, the PRO Z 100 Series offers less effort and less fatigue while providing better response for faster cutting and unmatched hillside stability.
- **Comfort:** PRO Z 100 Series includes all the comforts professionals appreciate - a standard suspension seat, roomy operator station, intuitive control panel and easier deck lift for less operator fatigue.
- **Warranty:** 2-years with no hour limit.

“Landscape professionals need equipment that shows up ready to work hard — all day, every day with no exceptions,” said Emily Sword, Cub Cadet director of brand marketing. “To deliver on that, we built added strength into every aspect of the PRO Z 100 Series and surrounded that strength with the best overall package of features and specs in the industry. Then we tested it – putting it in the hands of landscapers for the past six months to ensure that it is trusted to work efficiently in tough conditions, while keeping the operator comfortable.”

Backed by the strongest Cub Cadet warranty in the industry, the PRO Z 100 Series offers unlimited hour commercial warranty—giving operators even more confidence in the equipment.

The PRO Z 100 SERIES will be available at Cub Cadet Independent Dealers this spring with MSRP starting at \$6499.99.

About Cub Cadet

Established in 1961, Cub Cadet engineers, designs and builds outdoor power equipment using the highest quality components sourced locally and globally. Through a dedicated and extensive network of dealers and retailers, Cub Cadet delivers a full line of high performance power equipment and services that cover all aspects of grounds care for professionals and homeowners – including four-wheel steer zero-turn riders; lap bar zero-turn riders; utility vehicles; lawn and garden tractors, lithium ion- and gasoline-powered handheld and chore products; snow throwers and more. Based in Valley City, Ohio, Cub Cadet is recognized worldwide for its legacy in engineering excellence and its progressive dedication to exceeding owner expectations by delivering on its promise of better products, a better experience and better results.
