

GEAR DRIVE WIDE-AREA WALK-BEHIND EXCLUSIVE FEATURES

Patented Vari-Touch™ Foot Controls*

Lets you adjust the drive-belt tension on the go from 8-24 lbs., which provides better traction on wet or hilly terrain (N/A on G 1236)

Heavy-Duty Belt Guards

Protect belts, yet remove quickly to allow easy maintenance of spindles and pulleys

Exclusive Command Cut System™

Features heavy-duty Marbane® blades with a 1.7" blade overlap needed for a cleaner cut every time

Professional Grade OHV Engines

Provides the strength for year after year of tough, reliable power and durability

Fully-Welded, One-Piece Engine Deck

Tougher than the competition's bolted design: constructed of strong 7-gauge steel, with no bolts or hardware to vibrate or loosen over time

Fabricated Deck

Durable 10-gauge steel top, reinforced at the spindle area, constructed of strong 7-gauge steel skirt is fortified with solid-steel reinforcements for extra strength and protection

HYDROSTATIC WIDE-AREA WALK-BEHIND EXCLUSIVE FEATURES

Dual-Lever Controls

With easy pistol-grip controls, the hydrostatic models provide simple on-the-go tracking adjustments

Heavy-Duty Belt Guards

Protect belts, yet remove quickly to allow easy maintenance of spindles and pulleys

Exclusive Command Cut System™

Features heavy-duty Marbane® blades with a 1.7" blade overlap needed for a cleaner cut every time
