## FEATURES

LITHIUM-ION BATTERY

3X LONGER PER CHARGE

EXTENDED STORAGE TIME WITH LESS SELF-DISCHARGE

MAXIMIZES PERFORMANCE

3-YEAR LIMITED WARRANTY†

†See specifications for warranty information.

## A SMARTER POWER SOURCE MAKES FOR SMARTER POWER TOOLS.

The Lithium-Ion battery that powers Cub Cadet's handheld equipment lasts three times longer than traditional nickel-cadmium battery-powered handhelds. And with no cord to hold you back, you'll be able to enjoy the great outdoors for that much longer.

SMARTER FEATURES FOR A BETTER EXPERIENCE. THAT'S THE **CUB CADET ADVANTAGE.**

### LITHIUM-ION HEDGE TRIMMER

The precision-sharpened steel blade is rust-resistant and will give you a perfectly even cut. Also, at 22", the dual-action blade offers an extended reach allowing you to cut branches faster. And for ultimate enjoyment and control, a three-sided comfort handle provides a larger gripping area.

### LITHIUM-ION BLOWER

For a blast of power, turn to the blower that produces up to 100 MPH and 135 CFM. A balanced and lightweight design provides easy use and handling, while a two-speed switch lets the user adjust speed to match the task.

### LITHIUM-ION CHAIN SAW

It's ideal for light trimming and pruning on small- to medium-sized bushes. You'll have the job done in no time as it comes fully assembled and equipped with an automated oiler. Because safety is just as important as results, it features a trigger lock and standard hand guard.

### LITHIUM-ION POWERED TRIMMER\*

With a 12" cutting swath, right- and left-handed use and battery indicator button, you can trim time off your to-do list. And because the battery and charger are included, you can power the other handheld tools too.

\*Includes battery and charger

### LITHIUM-ION POLE SAW

With an 8" bar length and lightweight design, you enjoy easy use and handling. A collapsible pole extends to trim branches from 5' to 8', while a soft-touch rubber grip reduces vibration.
